September 2023

WORK EXPERIENCE

Front-End Engineering Intern

March – August 2022

- Undertook the development of a comprehensive to-do list web application from scratch. Starting at 0% functionality, I utilized my skill in HTML5, CSS, and React/Node JS to elevate its functionality to an impressive 65% Enhanced media content creation by actively transcribing interviews and monitoring news channels to gather relevant material, allowing for the timely and informed development of news articles, press releases, and media campaigns.
- Collaborated with 5 interns to successfully design and develop an engaging math learning web app tailored for toddlers. This experience significantly enhanced my proficiency in HTML5, CSS and React/Node JS, elevating it to 55% by the end of the internship.
- Tested the developed web applications for bugs and operating speed, fixing bugs, and documenting processes to increase efficiency by 28%.
